PROFILE

Finance graduate with analytical capabilities in financial statements, Excel and Power BI—bringing structured thinking to reporting, performance analysis and business intelligence. Focused on connecting rigorous financial analysis with accessible, decision-ready data storytelling.

AREAS OF ANALYTICAL FOCUS

Financial Analysis
Interpreting financial statements to assess operational and financial performance.

Corporate Finance
Building an analytical understanding of capital allocation and corporate finance principles.

Valuation
Applying valuation frameworks to support structured investment and corporate finance analysis.

Data & Business Intelligence
Transforming financial data into clear, visual and usable business intelligence.

EDUCATION

Bachelor's Degree in Finance — 2022 — 2026 | GPA 4.43 / 5.00
Prince Sattam bin Abdulaziz University
